Bespoke Shelving

Custom

List Price (as shown)

Open storage designed for organization and visual continuity.

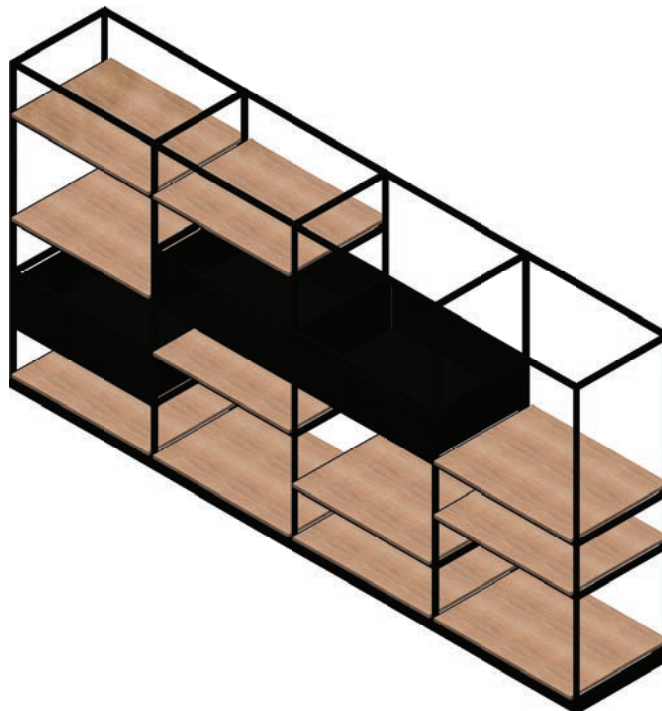

Bespoke Shelving provides a structured approach to storage in office and collaboration environments, balancing open display with functional organization. The steel frame and modular layout create a clean, architectural presence while supporting everyday use. Shelving configurations can be tailored to fit specific layouts and storage needs. UV coated Baltic birch shelves and laser cut panels offer durability with a refined finish, supporting up to 250 lbs. per shelf for books, materials, or shared resources.

A wide range of powder coat finishes and surface options allows the unit to align with surrounding furniture and interior palettes. Whether used in private offices or open work areas, each unit is designed to complement both the layout and the way the space is used.

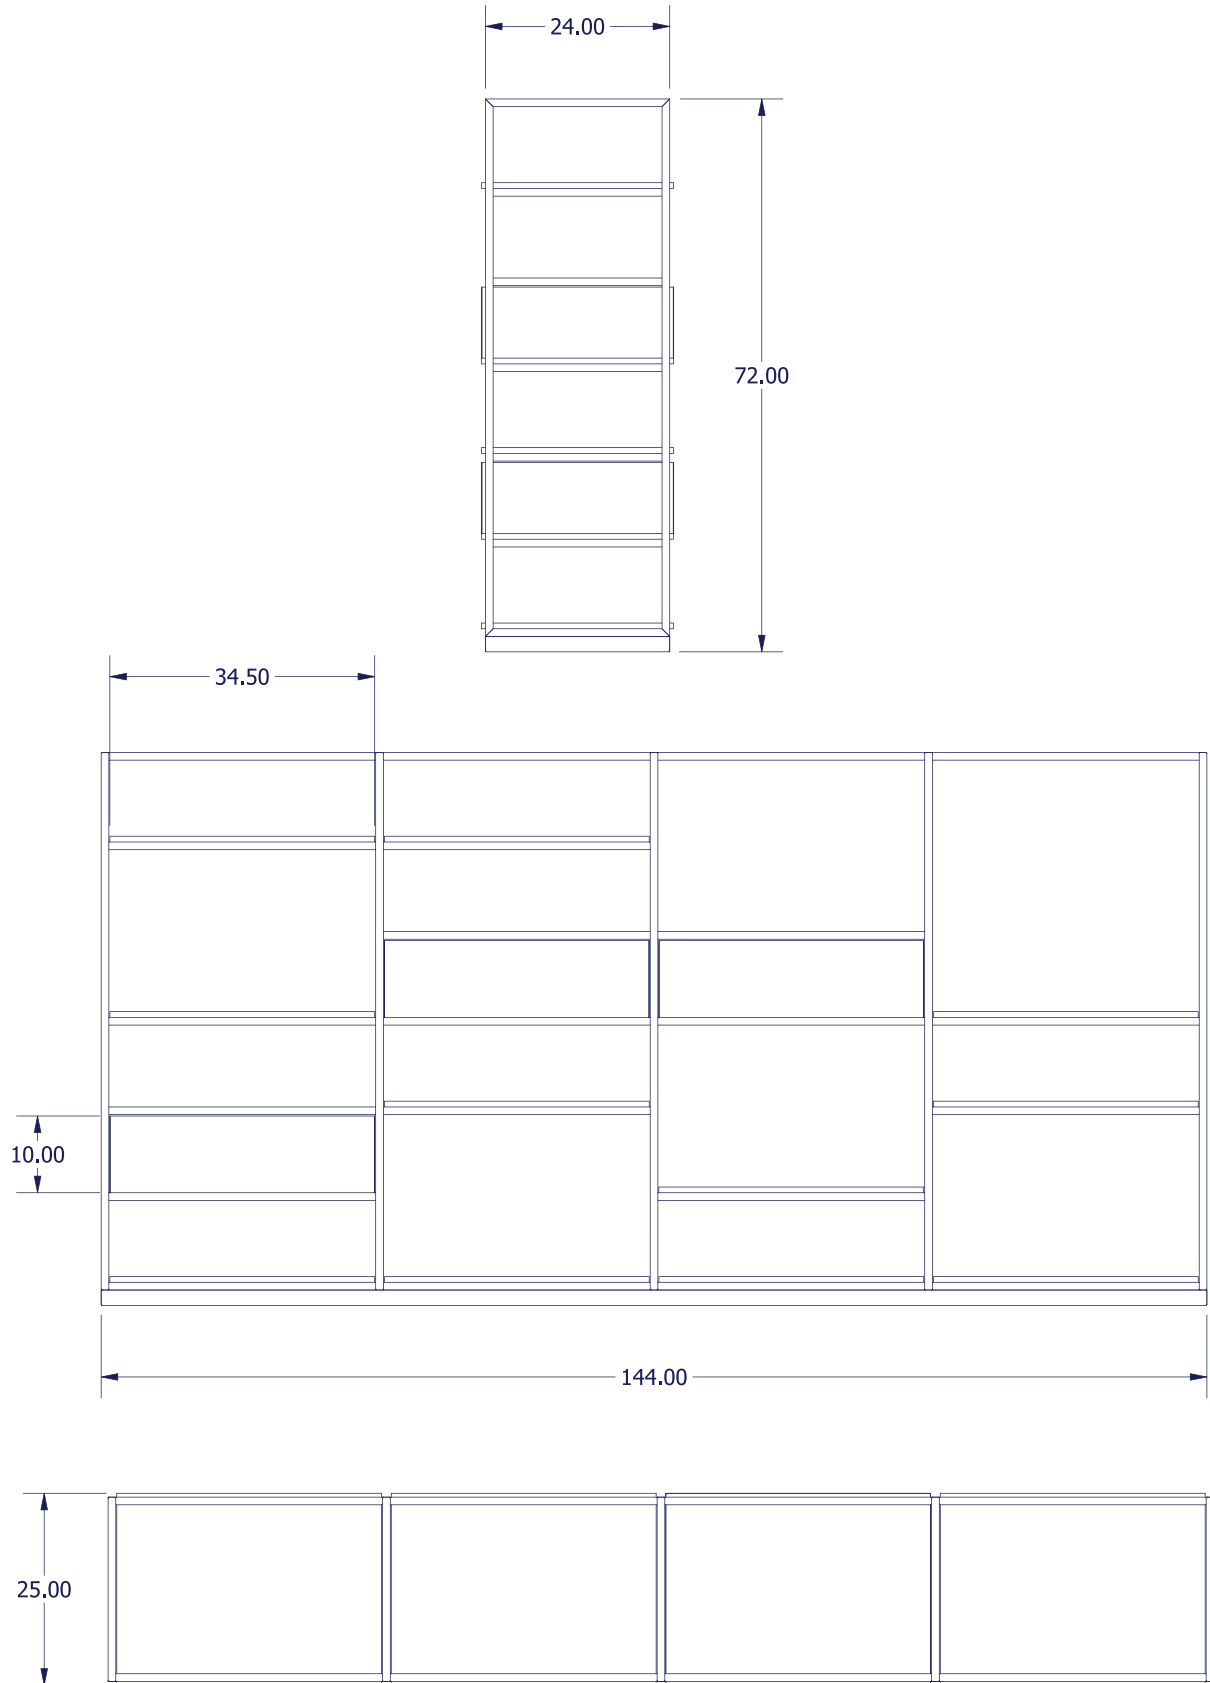

Specifications (as shown)

- Steel frame with black textured finish
- Black texture planter box
- Norwegian ash phenolix shelves

List Price: \$14,808.00

Drawings

Every project is different.

That's why we deliver at three levels — each with the same American-made quality, sourced and built in Austin, Texas.

STANDARD
